Alaska Energy Authority

01455-03

1. Award No. 1455, Amendment 3

***Award Conditions to the Financial Assistance Award  
Between the Denali Commission and Alaska Energy Authority  
For Bulk Fuel Inventory Assessment  
Award No. 1455, Amendment 3  
August 2016***

All changes to the award conditions are noted below.

***1. Scope of Work***

The scope of work in the Original Award and Amendment 1 are clarified/amended as follows:

- A formal report is not required; the community and facility lists produced under this award shall be transmitted via a cover memo that includes information on when and how the field assessments were conducted, how the data columns in the lists were populated, and an order of magnitude estimate of the total unmet need.
- The Community Priority List shall include an aggregate deficiency score for all facilities in the community, and identify those communities that have barge header systems with significant deficiencies.
- The Facility Priority List shall include an overall deficiency score for each facility, an Environmentally Threatened Community (ETC) score for each facility, and a preliminary indication of which facilities are candidates for replacement vs. refurbishment vs. minor repairs.
- The Unranked Community List shall identify all communities from the original 1998 Priority List, that were not included in the 2015 field assessments, and a brief note as to why.

***2. Budget***

The total budget for the original scope of work and the revised Amendment 1 scope summarized above is \$295,000. The total budget for the Amendment 2 scope of work is \$25,750. Budget amounts may be shifted between these two categories with prior written approval of the Denali Commission Program Manager.

***3. Performance Period***

The amended performance period is December 1, 2013 through December 31, 2016. This is the period during which Award recipients can incur obligations or costs against this Award.

There are no other changes to the original Financial Assistance Award, as amended.
